Subject: CSX Securing NIT Access

John

Good morning. I hope this note finds you well. I understand from your assistant this morning you are on the road traveling. When you get a chance please give me a call back on my cell at 904-607-8147 (I'm traveling most of this week). I'd like to discuss securing VPA's written support to secure CSX access to NIT via NPBL as we discussed when Jim Foote and I visited more than a month ago. We continue to believe that securing access gives NIT competitive advantages that other ports on the east coast enjoy and will serve you well for growth well into the future. I'd like to discuss when you get a chance.

Thank you,

Dean M. Piacente
